

Negotiations on For Purchase of Rolling Mill Here

REPRESENTATIVE OF U. S. FIRM
WAS HERE LAST WEEK LOOK-
ING OVER THE PLANT—DEAD-
NOT YET CLOSED BUT PROS-
PECTS GOOD.

Fred Zeigman, a representative of the U. S. Horseshoe Company of Erie, Pa., was in town last week looking over the rolling mills here in the interests of his company, which has been carrying on negotiations for the purchase of the mill.

Mr. Zeigman told the Review that the deal had not been closed yet and there were still a few matters to be considered, but he thought these could easily be settled.

This company has already purchased

ing the plants should the deal for the Redcliff plant go through. Mr. Zeigman said there were many things

would be definitely settled, as each plant had its advantages and disadvantages. The fact that there was an open hearth furnace here was much in Redcliff's favor and he thought some arrangement might be made to run both plants in conjunction.

Considerable interest is shown locally in the outcome of this deal and it would mean much to both Medicine

Wheat Pool Handled Grain at 1.28c Bushel

Is a Slight Increase Over the Cost of Handling for Last Year

Pool grain was handled at a cost of 1.28 cents per bushel this year, according to the interim financial statement presented by the pool shareholders.

cents per bushel, as compared with .613 cents last year. Carrying charges paid to country elevators showed

to .579 cents owing to the embargo on grain shipments enforced for some time during the year. The total overhead expenses of 1.28 cents a bush showed an increase being almost entirely due to the increase in elevator charges.

there will be credited in the final financial statement the earnings from pool terminal elevators. The cost of handling goes through pool elevators.

Crops Now Passing Through Critical Stage

Outlook Still Satisfactory on Wheat But Rain Needed

Alberta crops are passing through

The period has been reached when fairly definite conclusions may be arrived at respecting harvest prospects with regard to a considerable portion

at present is that the continuance of hot, dry weather, or the coming of beneficial rains may effect a change of several bushels in the ultimate average yield. In view of this, the department feels it premature to make any estimate of yields at present.

Generally speaking, with the exception of one or two fairly well defined areas of more or less limited extent, the wheat crop situation may be said to be satisfactory. Given fairly favorable conditions up to harvest, the province will reap a much larger crop than last year. In certain areas of very poor soil, the farmer is pessimistic that last year's crop, and the situation throughout is better.

DROUTH AREA QUESTION

THERE have been many enquiries lately as to what progress is being made by the commission appointed some time ago to investigate conditions in the drouth area of the province. Since nothing has been heard from it now for some time, the Review also made some enquiries and was informed that the commission's work has been delayed owing to circumstances which have cropped up since the commission was appointed.

In an endeavor to solve the drouth area problem the Dominion and Provincial governments are working together. Because of this the still unsettled condition of the Natural Resources, and the fact that questions such as seed grain relief, pre-emptions and purchased homesteads have all been involved and are for the time being side tracked because of the sudden dissolution of the federal houses, are at retarding the progress of the provincial commission.

Since both governments are working together, it can hardly be expected that much progress can be made until after the Dominion election and until new government officials get comfortably settled into the saddle. We are assured that as soon as this happens the work will be proceeded with as quickly as possible.

IS IT ANY WONDER

IN Alberta, Progressive M.P.s and leading officials, in caucus assembled, decided they did not want any truck or trade with any other political party. Liberals included. This decision was no doubt arrived at because of the success of Progressives at the polls in the last provincial election.

In Manitoba where Conservatives are fairly strong and well organized and where the rank and file of the party are beginning to realize what is going on, the quondam leader of the Progressives is advocating co-operation with the Liberals to defeat Conservatives who stood behind them in days gone by.

In Ontario the old Patrons of Industry system of running Liberals under the new name in order to catch enough Conservative votes to elect the candidate, is being adopted by Progressives. And still we hear Progressive talk of the tactics of the old political parties.

Is it any wonder with this conglomeration of ideas, scheme and systems that Progressive representatives at Ottawa in the past cannot be depended upon to stay put.

SIGNS OF APPREHENSION

IF the Medicine Hat News is any criterion, Liberals of that constituency are getting very nervous about the return of Dr. Curd in the approaching election. The News is strongly advocating the co-operation of Liberals and Progressives because, as the News says, "this seems to be most desirable in order that the vote may not be so divided as to afford the Conservative nominee a chance to slip in." The News has very good reason for being apprehensive of the result of the election in this constituency. Vote's throughout the country are beginning to realize now as never before that conditions throughout the Dominion during the past ten months have not been what they should have been, and they are placing the blame at Ottawa where it rightly belongs. The experiment tried down there after the last Dominion election has proved a farce, a fiasco and a failure and the people don't want to take any chances of having it repeated.

Eastern papers are prone to refer slightly at times to the West and its way of doing business. There was a little bit of business pulled off here this week which distributed thirty-seven million dollars among farmers of the prairie provinces.

This is the third distribution of real money among farmers of the West, amounting in all to about 260 million dollars. This is real new money created out of our prairie land by the hard work of our farmers. As a very large percentage of these millions will find its way—directly or indirectly—back to Eastern Canada's industrial centres, and another large percentage will help build up railway profits, it is not likely that eastern papers will say much about it, at least they will not criticize our way of doing business in the disposition of our wheat. To handle all grain in the western port at an overhead expense of only approximately one and a half cents a bushel is good business.

The report that negotiations were under way for the purchase of the Rolling Mill here caused a flurry of excitement last week. It appears, however, that there are a few matters yet to be settled before the deal is consummated. The fact that other towns across the line are of feeling inducements to have this plant moved over there should prompt local officials to lend every assistance in an endeavor to make it possible to start operations here.

Quite frequently on election day one hears a voter say: "Oh, I don't think I'll vote. One vote won't make any difference." Anyone who thinks that way in the future should just remember the result of the recent Boy Valley election. One more vote in that constituency for Ben Plummer would have made him its member.

Now is the time to get posted on the political issues of the day.

Here and There

The Right Honorable Viscount Kintin Matsuda, attaché to His Imperial Highness Prince Chichibu, second son of the Emperor of Japan, passed through Canada and left Vancouver for Japan where he will spend his vacation with his family. The Viscount will return through Canada to England in the fall.

Fifty-five young fellows who have been prepared for Canadian farming at the British Ministry of Labor's centre at Braden, England, arrived in Canada recently on the Canadian Pacific R.S. "Empress of France." They came to this country, accompanied by Lt.-Col. G. A. Brinton, under the auspices of the Canadian Government and the C.P.R.

Arrangements have been made to install facilities for supplying both hot and diesel oil to ocean liners which will dock at the monster new double dock pier "B" and "C" of the Canadian Pacific Railway now nearing completion in Vancouver harbor. It was announced that eight marine elevators would be installed on the pier, the elevators being known as Barlow type on the Pacific coast.

262 Certificates were awarded to successful Sleeping and Dining Car employees of the Canadian Pacific Railway for passing their examinations in the First Aid instruction classes. The extent to which First Aid instruction among C.P.R. employees is growing is indicated by the fact that the McAdam, N.B., team was recently awarded the winner of the trophy, in which competition Michigan and Maine also sent contestants.

Definite indications of the largest building year Canada has had in more than a decade are now shown by the record of the first six months of this year. The very large and unusual total of \$104,445,278 of new construction for the first half of the current year and contemplated new work to the value of \$24,000,000 for the remainder of the year, during June contracts awarded totaled \$54,164,400, an increase over June, 1925, of 63 per cent.

Net profits of the Canadian Pacific Railway for the month of May at \$2,448,276, compare with \$208,113 in the corresponding month of last year, an increase of \$1,330,163, being the best showing in this respect since 1921. Gross earnings for the month are \$4,145,754, an increase of over three millions, when compared with May of last year, and the highest gross showing by the road for any May since 1926. Working expenses for the month under review are shown higher by 1 1/2 millions.

Two officials whose tenure of office has practically coincided with the existence of the Canadian Pacific Railway have recently retired from that company. They are C. J. Flanagan, auditor of freight and shipping receipts, and J. H. Shearing, auditor of passenger receipts, both were presented with gold watches suitably engraved, while members of their staffs gave to Mr. Flanagan a travelling bag, and to Mr. Shearing a malarca cane with a gold band engraved with an appreciation of the esteem of his staff.

New C.P.R. Cold Storage Cars

Under old conditions there was always a certain amount of risk in shipping fruit. The entry of dust or moisture, or the high temperature of the car, was frequently the cause of fruit becoming spoiled during transit. But under present conditions, fruit not only remains fresh, but it is actually improved. For many months officials of the Canadian Pacific Railway and the Dominion Express have been carrying on experimental work with a new type of ventilated express car to be used in the handling of soft fruits by express to prairie points, and they have recently arrived at an entirely new method of ventilating express equipment, which is known as the "A.C. Ventilator."

This device allows the air to be recirculated in the car through two spacious intakes located at the ends of the car at the roof, carried to the floor without decaying in velocity and effectively distributed through the lower sections of the car. Three times a minute there is a complete change of air, 10,370 cubic feet of air per minute being recirculated through the intakes and 9,322 through the exhausts.

The new type of ventilator was tested out under full load conditions

Interesting Local Items

Football games have been discontinued during the present hot spell.

Evelyn Jones entertained a number of her friends Monday afternoon to celebrate her birthday. After tea, games of all sorts were played. All enjoying a most happy time.

Mrs. M. E. Aul has been confined to her bed for the last few weeks suffering from intestinal troubles. Her many friends will be glad to learn she is now greatly improved.

Mr. and Mrs. S. T. Hopper and family, who are on their way to Vancouver, dropped over here for a few days this week to visit Mrs. Hopper's sister, Mrs. E. L. Stone.

In the recent in the Bow Valley constituency, J. T. Shaw, liberal leader, was declared elected by one of a majority. B. H. Plummer, Progressive candidate, may make an appeal.

W. J. Manfield returned home last Tuesday evening after attending the annual meeting of the Dominion Greenhouse Co. in Vancouver. While at the coast he visited many old time Redcliff citizens.

Watch for posters announcing the Ice Cream Lawn Social at Mrs. F. Cass's on Wednesday, Aug. 4th, under the auspices of St. Ambrose Senior W.A. If the weather on this date is unfavorable, the social will be held in the Parish hall.

As the results of the high school examinations are not published this year we are unable to give a list of the successful pupils. We would very gladly print it if those who receive word that they have passed, would let us know. Phone No. 9 or call at the office.

His many friends in town were pleased to see Jim Halesworth making his usual rounds this week. Mr. Halesworth had a narrow escape last week when his truck went over the embankment on Crescent Heights and was overturned three times on its 100 foot drop. Jim says he stayed with the old truck till it came to a standstill. He escaped without a scratch. Rumor has it that Jim has been offered a permanent position with the Self-Plaster circus to do the stunt at such performance but he refuses as he has turned down the offer.

Miss Agnes ... entertained a number of her friends last Saturday evening on the occasion of her birthday. In the evening which began the first prize went to Miss B. Taylor and Mr. Norman Willis. Canada then went to Miss Mary Kellest and Mr. Mabelle Galt. At the conclusion of this a dainty lunch was served and the guests proceeded. The birthday cake was made by Mrs. Chapman. A very enjoyable evening was spent by all.

Margaret Sellars received word from the Dept. of Education this week notifying her that she has passed her grade XII examinations with honors. This is not the first time Margaret has won distinction in her departmental examinations. She made VIII exams. The Review joins in extending congratulations. Also Sherran, another graduate of Redcliff school, was successful in passing her examination in trigonometry.

Hear Dr. Gershwin in the Cameo theatre tonight after the picture show.

The swimming pool was well patronized during the warm days.

Mr. McKee is back from his holidays and will be back to his office tomorrow in the bank.

Mrs. Reg. Cann of Brooks spent a few days in town this week, visiting her sister, Mrs. Geo. Myers.

Miss Cameron leaves tonight for Vancouver where she will visit friends for a short time on her way to California where she will spend a few months' holiday.

The Ladies' Aid of Gordon Memorial church will hold a new Social on Mrs. H. Champ's lawn on Tuesday, Aug. 30th, at 5:30 o'clock. Ice cream and cake will be served. Everybody welcome.

If your children are enjoying the summer but a nobby had drop across to one of the committee and get a season ticket for \$1.00. It's worth that for the fun the kiddies get. The committee and caretaker have to use all alike. One of the rules is that the ticket holder must have a few days on ticket before the school children of that family can use the pool.

IN OYING MEMOIR
Of Charles E. Oakland, who died in Col. Belding Hospital, Calgary, on July 27, 1926.
Two and a half years have passed since he was called away.
Short and seldom was the call. Of one so dearly loved by all.
The blow was great the shock severe. We little thought his death so near.
—From Father, Mother, Sisters and Brothers.

—From Sister, Sister, Sister and Brother.
Weep not, dear Father, but be content. For you are I was but lost.
In love we live in peace I died. You asked my life but was denied.
LORD—A very great loss to Redcliff. A. F. H. Holden.

Dick Barthelmess
Films Belasco Hi

Screen Star Portrays Role of Heineke in "Shore Leave"

"Shore Leave," the new Richard Barthelmess production which comes to the Cameo theatre tonight was a big Broadway hit when produced by David Belasco with scenes from the stellar role.

As written by Hight Osborne "Shore Leave" centers about the character of the little dreamer of a small New England seaport. The role, Connie Martin, was played by Miss Starr. The story dealt with Connie's romance with a happy-go-lucky guy, one "Bilge" Smith, played behind the footlights by James Rankin.

Barthelmess was striking possibilities in the role of "Bilge" Smith. The play was purchased by the producers of the Barthelmess pictures, Inspiration Pictures, Inc., and the comed was adapted to fit the young star needs by Josephine Lovell.

Dr. Wade was nominated as Conservative candidate in Acadia riding.

"NOTHING MATTERS"

Norma Shearer is Superb in Movie

Star of "A Slave of Fashion" More Beautiful and Talented Than Ever

Girls if you want to get a thrill be sure and see "A Slave of Fashion," the Hobart Henley Production, which comes to the Cameo theatre on Monday.

In the first place it stars Norma Shearer and Miss Shearer never had looked more beautiful than she does with a wardrobe as the dress in this picture. She makes your heart palpitate with every tiny smile she comes out in a new creation and my only regret was in the fact that I couldn't see the colors in the gown.

Law Cady plays the love, Nicholas Westworth, and he is the sort of a hero any woman would be glad to worship. He has never made love so wonderfully, after, than he does to Norma Shearer, who plays Katherine Emerson, the little girl from Iowa who goes to New York and through a series of coincidences finds herself ensnared in the luxurious apartment of Nicholas Westworth, one of Manhattan's richest adepts, who has had himself to Europe for a six months' vacation.

BIG OIL INTERESTS NOW IN ALBERTA

NO WONDER CANADIANS ARE HANDSOME

Canadian men and women owe their good looks and beauty to their country, says Paul C. Fann, of Shanghai, alias Paul C. Fann, of Montreal, who believes that environment is the chief factor in the evolution of the human species. On the whole, the young Chinese philosopher thinks, Canadians acquired collectively, are much better than the Chinese because of their association with more beautiful surroundings.

"This is a very old theory," said Mr. Fann in a recent interview, "and a very well-founded one." He pointed out the fact that the inhabitants of the vast hinterland areas of China were as ugly people, while a nation of the Province of Kiangsu, the most fertile and beautiful of Chinese provinces, could be recognized anywhere for their good looks.
